Because the future needs intelligent solutions

Inside the smartest workflows: being at the heart of every smart connection, the driving force for improved workflows and productivity – that is our global commitment. That is why we are developing and manufacturing products for almost all industrial sectors. Whether it's mechanical and facility engineering, traffic and process engineering, clean room technology or renewable energy: in all these industries we are the perfect partner and expert in electrical and electronic connection technology.

In addition to developing and creating new products, we invest in modern, efficient manufacturing processes. Ensuring the highest quality is our top priority. Our top-class products are supported by this interplay between our top-class personnel and machinery. And our services are just as outstanding as our products. Your wishes and requirements are what motivate our customised solutions.

Living sustainably and taking responsibility

At CONTA-CLIP, we focus our thoughts and actions to successfully implement our ecological, economic and social goals.

We promote economic sustainability in the form of healthy growth, together with financial strength and consistent reinvestment within the company. Our stable management, low staff turnover and employees involved in decision-making processes all provide a guarantee for social sustainability.

Our actions are also ecologically sustainable throughout the entire value chain. This is reflected in the selection of our materials and our use of energy within the company. We work with materials that contain no hazardous substances and support regenerative heat recovery. This enables us to take responsibility for future generations.

Printing system **TTPCardMAX**

The TTPCardMAX printing system efficiently and quickly creates highly visible and permanent marking for terminal blocks, cables and wires, devices, ducts, input/output devices, external control panels, and many other components.

TTPCardMAX provides considerable advantages over conventional marking systems such as: versatility, clear print quality, user-friendly, and automatic or manual high-speed printing.

It requires minimal maintenance such that it is dedicated to performance, precision and reliability for maximum up-time.

Gone are the days of relying on multiple printers! The TTPCardMAX printing system optimises your workflow's efficiency and productivity.

The advantages

Versatile

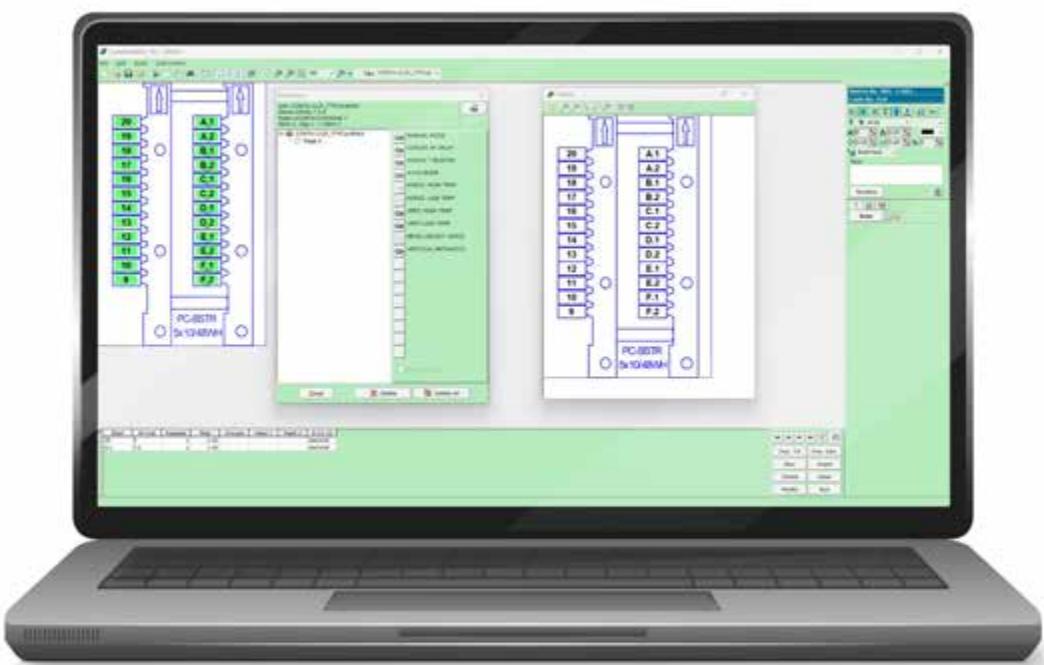

The TTPCardMAX printing system can print on many different materials; this enables simple and versatile marking of labels and tags for terminal blocks, cables, wires, devices, ducts, input/output devices and external control panels.

High print quality

The thermal transfer technology delivers consistently high resolution printing at 300 dpi for maximum print area sizes of 80 x 500 mm covering and exceeding most popular label formats.

High printing speed

The automatic in-feed of marker cards enables printing of up to 5,500 markers per hour at print speeds of up to 60 mm/s.

Easy to use

The printing software is tailored to the marker cards with templates for all materials. This simplifies operations. The printing system can be used in a manual, semi-automatic and fully automatic modes tailored to each label, while ensuring speedy work-flows.

Minimal maintenance

An easily accessible printing/in-feed area with ink ribbon cassettes, and a special cleaning cassette maintains the printer chamber and print head free of debris.

Compact

The printing system features a compact design (25 cm height) so that it can be set up even in confined spaces.

TTPCardMAX – one printing system for all your marking needs

CONTA-CLIP's TTPCardMAX thermal transfer printer is a high quality printing system for printing on a wide range of materials. It is easy to use, requires little maintenance and delivers excellent print quality at low cost.

Features

■ Technology

The thermal transfer technology ensures high print quality and durability for a wide range of materials.

■ Printing materials

The printing system can print on a wide range of materials, including PVC, PMMA, polyester, ABS and polycarbonate.

■ Print quality

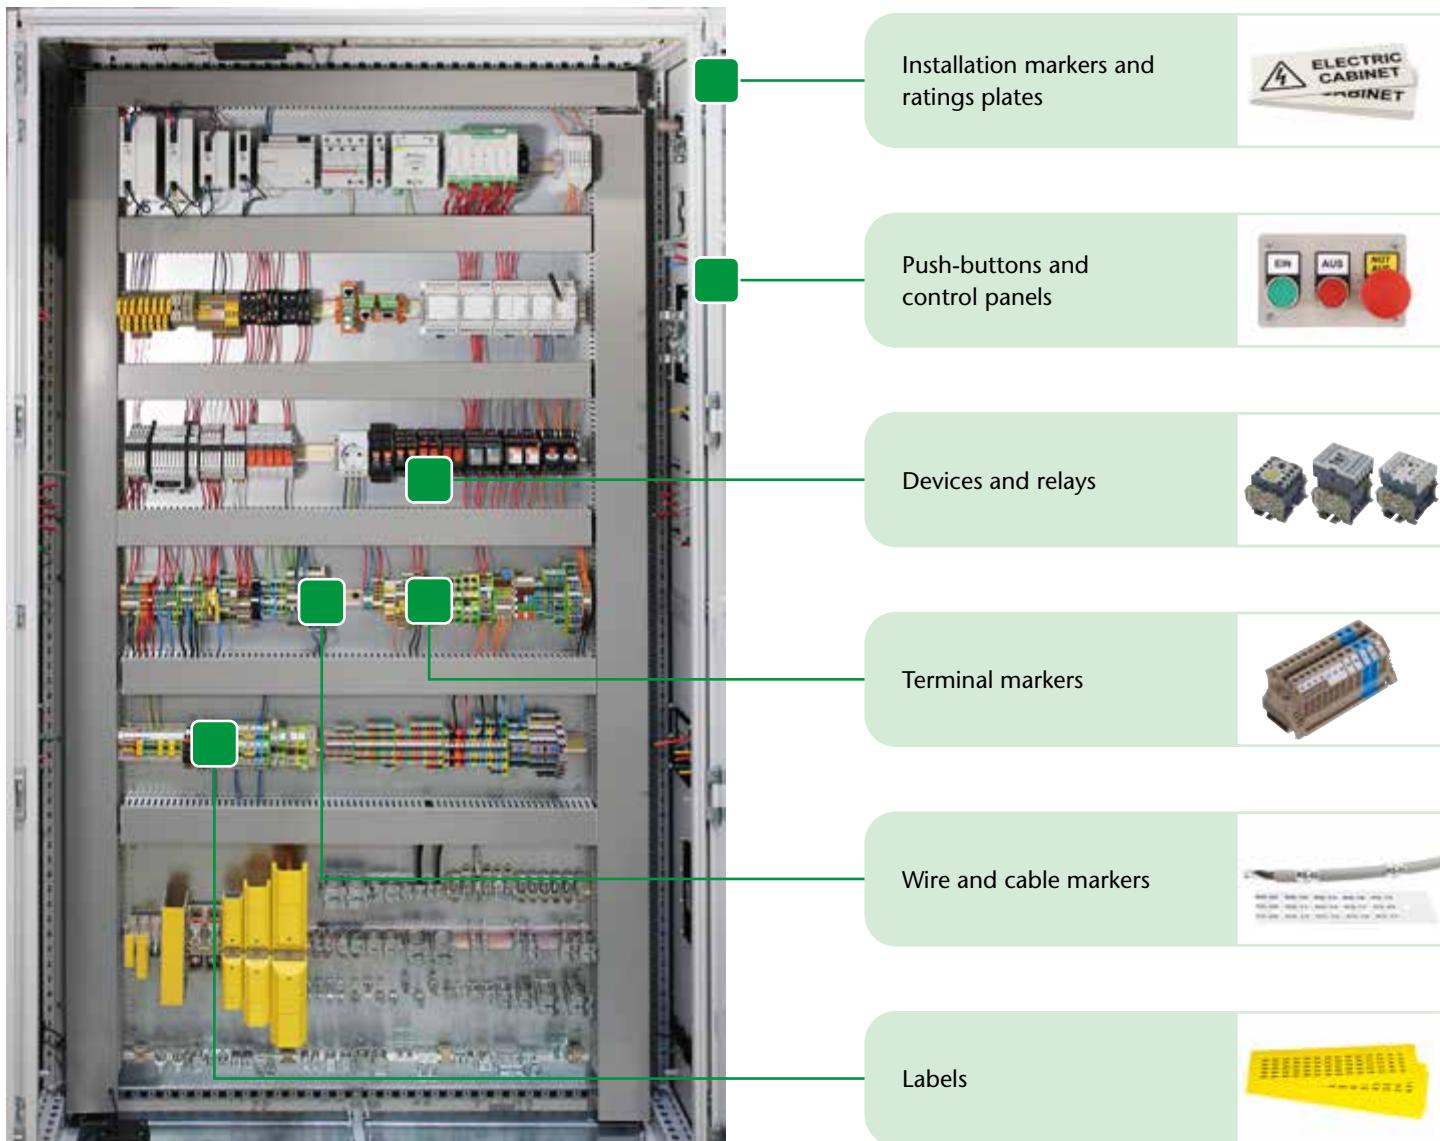

TTPCardMAX delivers excellent print quality with sharp, clear contours for labels and signs.

■ Maintenance

The system is low-maintenance and requires minimal attention.

■ Operability

TTPCardMAX is easy to use and has an intuitive user interface.

■ Software

The CONTAPrintMAX software enables you to easily and quickly prepare the print data. The Windows-based software has been specially developed for professional labelling of machines, installations and electrical cabinets.

■ Applications

Our printing system is suitable for a wide range of applications, including printing labels and signs for terminal blocks, cables and wires, devices, ducts, input/output devices, external control panels or other applications.

CONTA-CLIPS's TTPCardMAX is an excellent choice for companies looking for a high-quality and user-friendly marking system.

Wire and cable markers

Cable marker sleeves for wire markers PC

Characteristics

Marker material	Polyvinyl chloride PVC, soft
Flamm. class acc. to UL 94	V-0
Temperature range	- 15 °C to + 70 °C
Mounting	Slide-on
Matching markers	PC/HF-SI2K02W series, MC-ESS series high pocket for PC and PA wire markers

Cat. no.	Type	Dimensions L x W, mm	Colour	Outer diameter of insulation min. mm	max. mm	Qty.	Compatibility

Our products for your challenges:

- 01** **CONTA-CONNECT**
Terminal blocks
with Push-in connection system
Cat. no. 98070.2

- 02** **CONTA-CONNECT**
Terminal blocks with screw connection system
and special purpose terminals
Cat. no. 98071.2

- 03** **CONTA-CONNECT**
Terminal blocks
with tension-spring connection system
Cat. no. 98072.2

- 04** **CONTA-CONNECT**
Installation materials and
other accessories for terminal blocks
Cat. no. 98073.2

- 05** **CONTA-LABEL**
Marking components
for thermal-transfer marking systems
Cat. no. 98074.2

- 06** **CONTA-LABEL**
Marking components
for ink-based marking systems
Cat. no. 98075.2

- 07** **CONTA-BOX**
Housings
Cat. no. 98076.2

- 08** **CONTA-CABLE**
KDS cable entries, KES cable entries,
SAB/SSAB/SABK shielding solutions
Cat. no. 98077.2

- 09** **CONTA-ELECTRONICS**
Electrical and electronic
cabinet components
Cat. no. 98078.2

- 10** **CONTA-CON**
PCB terminals
and connectors
Cat. no. 98079.2
